

Junior Technician - JobGSA-014-18

GeoSUN Africa, based in Stellenbosch, is a spin-off company of the Centre for Renewable and Sustainable Energy Studies (CRSES) at Stellenbosch University. GeoSUN specialise in solar resource assessments for the solar energy industry. GeoSUN has a Junior Technician position available for a recently graduated NDip student or for a student looking to complete their P1/P2 and stay on with the company (this will be a one year contract with the intention of extending it). Please don't apply if you are looking to only do your P1/P2, we will only accept P1/P2 candidates who would like to stay on after their internship.

The requirements are:

- Good English proficiency.
- Travelling and site work will be required.
- Valid Driver's License with driving experience.
- For P1/P2: All required subjects passed (no subjects that need to be completed part time during the P1/P2 period).
- South African citizen with above average moral values.

The successful candidate will be required to assist with:

- On-site measurement equipment installations and maintenance, focusing on measurement instruments, data logging equipment software and communication systems.
- Calibration work at utility scale Solar Plants (many of which are in remote locations in South Africa).
- Office work which could entail data processing, data storage (SQL), data logger programming, weather station pre-setup and testing, etc.

The following will be beneficial but not a requirement:

- Previous experience with data loggers or meteorological equipment.
- Afrikaans proficiency (many of the project sites are in the Northern Cape).

Salary Range:

- Dependent on whether you have completed your NDip or still need to complete your P1/P2.

Applications without the following information will be rejected:

- Applicant Summary (next page/ on website)
- Detailed CV (include previous work experience, even if casual work e.g. waiter work).
- Academic records & matric results.
- At least two references (with main and alternative contact numbers and email address) – more than two references are preferred.

Application procedure:

- Send the required documents as listed above to application@geosun.co.za with the following email subject: "**JobGSA-014-18**"
- If you do not hear from us regarding your application within three weeks of submitting your application, please consider your application as unsuccessful. We typically receive a large volume of applications and cannot respond to each application individually.
- **Closing date:** we typically keep the application open until we find a suitable candidate. As long as this advert is on our website, the application is open.
